## Phenomenal Are Results Obtained From the Great Spiegel Remedies

### Dr. Jones' Sangvin Herbal Tonic That Battles Disease Like the Indians Fought the White Man

Prepared and manufactured on the old Indian principle from Herbs, Roots, Berries, Blossoms and Leaves. Purifies the Blood, strengthens the Nerves, gives new life by toning and building up the run-down system. The most successful ever introduced here for a long time. Contains no morphine, arsenic, potash or any other mineral drug. A spring tonic. One Dollar per bottle, 6 for \$5.00.

### DR. JONES' BEAVER LINIMENT

Look for Beaver Trade-Mark.

The greatest pain destroying compound known to the Medical profession. This remedy is the result of many years' test and trial by suffering mankind. It is powerful, penetrating, soothing and healing to the muscle, nerve and bone. A trial by the most skeptical will prove the value and worth. Once used never forgotten. Hundreds of letters are being received daily testifying as to the benefit received from this remarkable remedy. Every bottle is guaranteed to relieve Rheumatism, Neuralgia, Backache, Sore Throat, Quinsy, Congestion of the Lungs, Coughs, Colds, Paralysis, Deafness, Stiff and Swollen Joints, and all bodily pains and aches, or money will be cheerfully refunded if it fails. Our confidence is based upon what it has done for others. None genuine without Beaver Trade-Mark. 50c per bottle.

### READ THE EXPERIENCES OF PARKERSBURG PEOPLE

Mr. M. B. Evans, 1009 East 19th St., says: "I had rheumatism in my shoulder and limbs, pains in my back from kidney trouble for several years. I purchased 3 bottles Sangvin and Beaver Liniment and upon using only one of each I experienced wonderful relief. I continued right on with the treatment until now my misery in shoulder and back is entirely gone. Your medicines are worthy of a recommendation and if others get the same results as I did, they will be perfectly satisfied. You have what people have been longing for, something to relieve pain and increased action of the kidneys."

Mr. L. L. Shaw, 1026 Jeanette street, says: "I have been suffering with sick headache so that I have been unable to go to work. My appetite was irregular, my stomach will give me dreadful pains after eating; it would blot nearly twice ordinary size. I am taking your Sangvin and using your liniment with wonderful results. My food digests better, my headaches are not so severe and it seems now I feel like living, while previous to taking

your medicine I was despondent and very nervous. My wife used the liniment for soreness around the shoulder and back, and she likewise has found your medicine as you recommended it."

Mr. Robert Christian, head cutter for The National Woolen Mills Company, says: "When I came to work in Parkersburg from my home in Memphis, Tenn., I caught a severe cold over a year ago this winter. My trouble and disease just naturally weakened my whole system. I could not sleep nights. I would cough so much, my pains across my chest were painful; constipated, no appetite, my urine was highly colored, physically I was not worth two cents. I read of the Great Spiegel Remedies and knew many in the shop were using Sangvin and the liniment and each one seemed to speak highly of the medicine. I tried 3 bottles of the liniment and six bottles of the Sangvin and I can honestly say, if the price was ten times a dollar my sleep alone which his medicine restored was worth it. I stand ready at any moment to back this man's statement for what they have done for me."

Mr. H. M. Bales, a well-known farmer of this vicinity, says: "Your remedy is certainly all you claim for it. I have suffered with rheumatism for years, and it is the first remedy I ever received immediate relief."

Charles Little, Route No. 5, Parkersburg, says: "I used one bottle of your liniment for rheumatism and I want three more. I found your remedy, after giving it a thorough trial, the best I ever tried. Your medicine is worth every cent I pay for it. I can highly recommend it for all bodily pains and aches."

Mr. Frank A. Hupp, South Side, Route No. 6, says: "Your medicine is no fake. I cannot say that my money has not been well worth spent. My wife suffered with toothache and neuralgia Sunday and inside of 15 minutes she suffered no pain. I can recommend your liniment to anybody who will come to me. Likewise your Sangvin is proving satisfactory. My whole family is taking it as a spring tonic. It is fine

as a laxative and seems to put new life into the whole system, after a person takes a few doses of it, one can feel it action on the organs of the body."

Mr. L. J. Gilpi, Cottageville, W. Va., Jackson county, who is working on the bridge here, called at the store yesterday and said: "I have a pain across my breast and toothache, suffered untold misery. I am sure glad that you convince me of the virtues of your remedy. I went home Sunday to visit my wife and found her suffering with pain in her side. I bathed her freely with the liniment and the misery likewise disappeared. I can now realize why you praise the remedy so highly in your lectures. I can do the same since I have given your remedy a thorough test. Your Sangvin is proven to be the best blood medicine I and my wife have ever taken. Its taste is pleasing and the action of the bowels after taking Sangvin is just what the people need. We find it the best stomach remedy we have ever used."

## The BIG DOLLAR SHOW FREE to All

The entertainment and amusement is the talk of the town. Do not fail to see those live Beavers handled and give their exhibition. Call and visit this Health Teacher, if you have any disease you are unfamiliar with and he will explain the proper way of using his remedies. Headquarters will be hereafter at Sturm & Wilson, the Druggists.

## OIL AND GAS DEVELOPMENT OF TRI-STATE

### Latest Reports of Operations in West Virginia, Pennsylvania and Ohio.

As development work in the eastern fields increases so does interest become keener among operators. All are on the lookout for new discoveries and the wildcat who may be fortunate enough to reveal some new producing territory, capable of supplying wells of a better average than now prevails, will not have a chance to be lonesome. All new strikes or rumors of strikes are closely investigated and one who can make discovery worth while will find operators tumbling over one another to secure leases. This state of affairs was in evidence when the fifth sand well on the Esther Evans lot in Indiana township, Allegheny county, was drilled in. In a very short time all of the surrounding farms were taken and not nearly enough to go around. A reported strike—too frequently erroneous—no matter how isolated, does not fail to bring a flood of inquiries soliciting confirmation.

**Watching Deep Sand Territory.** Development work in the deep sand territory in southeastern Ohio continues to increase, but the average size of the late completion is very small. In the Bremen field, Rush Creek township, Fairfield county, the Carter Oil Company's Bert Seifert farm is a 20-barrel producer in the Clinton sand. The same company has started a test on the David Ruff farm. The Weirich, Nolder Oil and Gas Company is starting No. 10 on the Mary Young farm.

In the northeast quarter of section 17, Green township, Hocking county, the Fisher Oil Company drilled No. 3 on the William Lemon farm through 28 feet of Clinton sand. It is showing some oil and has a fair gas pres-

sure. After it has been shot it should make a creditable production. In shallow sand territory in the Corns district, Monroe township, Perry county, John Denman & Son have completed No. 6 on the C. S. Stotler farm. It is a very light producer in the Berea grit.

Washington county is completing a good many wells, but the list contains no gushers. In the Payne district, Lawrence township, G. L. Watson's No. 3 on the Jane M. Decker farm is a very light pumper in the salt sand. In the same district Shay, McMullen & Company are drilling No. 3 on the E. A. Hune farm. E. P. McCutcheon & Company are drilling No. 9 on the Joseph Smith farm.

**West Virginia.** Just occasionally the shallow sand district in West Virginia depart from the general rule and complete a good producer. This time it is Pleasant county and the Bib Three Oil Company the owner. It is this company's second test on the R. A. Gorrell farm, located on Sugar creek, Union district, and is showing for a 50 barrel produced in the Keener sand. After given a shot it may do even better than estimated.

On Pinch Creek, Elk district, Kanawha county, the William S. Edwards Oil Company shot No. 1 on the N. W. Cavender farm in the Weir sand and increased its production from two to seven barrels. In the same district, the Freudenberg Oil Company drilled its test on the Chloé Wortz estate from the Squaw sand to the Weir sand and it is showing for a light pumper.

In the Weir sand pool on Blue creek, in the same district, the Ohio Fuel Oil Company gave its No. 3 on the William Young heirs' farm a shot in the Weir sand, increasing its production from five to twenty barrels. The same company gave No. 18 on the Edward Gebhart farm a shot in the same formation, bringing its production up from five to 95 barrels the ensuing 24 hours. The South Penn Oil Company shot No. 15 on the Anna C. Skinner farm and it responded by placing 135 barrels to its credit the first 24 hours. It had previously been producing five barrels a day.

**Starting Test Wells.** Near the dividing line between Tyler and Doddridge counties in Ellsworth district, Tyler county, Kelly & Rice have started to drill a test on the Enoch S. Haddock farm. On West Fork river, Clay district, Harrison county, Shaffer Bros. are drilling a test on the J. E. Williams

farm. In Grant district, Wetzel county, located on Fish creek, Myers, Stone & Company are drilling a second test on the T. M. Stone farm. On Three Mile creek, Elk district, Kanawha county, the Ohio Fuel Oil Company is drilling on the Harrison H. Smith farm in Campbells creek. Malden district, located in the same county. On Wills creek, Elk district, Geottman & Goshorn have the material on the ground for a test on the D. D. Carter farm. This location is in a section in which they have been drilling for wells in the Weir and getting light pumps.

On Knights Fork, Grant district, Doddridge county, the Good Luck Oil Company is building the rig for a test on the Charles Doak farm. On Coon run, McClellan district, the Carnegie Natural Gas Company has stated to drill on the John W. Gain farm. On Big Flint creek, Grant district, Ernest Randolph is due in the sand at a test on the A. N. Ford farm.

**Southwest Pennsylvania.** In the new development in Morris township, Washington county, Pa., the Arco Oil Company has drilled a second test on the J. S. Watson farm through the Grants sand and found only a light show of oil in the bottom of that formation. It is now drilling to the Fifty-foot sand. This location is 750 feet northwest of the first completion on this farm, and the well to first attract attention to that locality.

In the Dorseyville field, Indiana township, Allegheny county, the American Natural Gas Company completed its test on the A. W. Collier farm. It is dry in the Thirty-foot sand. The same company will be due to get the sand the latter part of the week at its test on the Joseph Berry farm.

**The Oil Markets.** The prices paid for oil of various grades by the purchasing agents are: Pennsylvania ..... \$2.60 Mercer black ..... 2.10 New Castle ..... 2.10 Corning ..... 2.10 Cabell ..... 2.12 North Lima ..... 1.73 South Lima ..... 1.73 Wooster ..... 1.90 Indiana ..... 1.58 Princeton ..... 1.82 Somerset ..... 1.95 Ragland ..... .90 Illinois ..... 1.82 Kansas and Oklahoma ..... 1.55 Plymouth ..... 1.63 Headton ..... .80 Corsicana, light ..... 1.55

### NOTICE OF DISSOLUTION.

Notice is hereby given that, at a meeting of the stockholders of the Bankers Oil Company, a corporation created and organized under the laws of the State of West Virginia, held at the offices of A. W. Bardett, room 401, The Griffin Building and Trust Company building, in the City of Grafton, Taylor County, and State of West Virginia, on the 6th day of April, 1916, at 2:30 o'clock P. M., the following resolutions were adopted:

Resolved, First, That the Bankers Oil Company, a corporation created and organized under the laws of the State of West Virginia, does hereby discontinue business as a corporation and surrenders to said State its charter and corporate franchises.

The board of directors will proceed to convert the property, choses in action and all assets of this corporation into cash, and pay off and discharge all its debts, liabilities and obligations; and after fully discharging all such debts, liabilities and obligations, divided the remainder among the stockholders pro rata with their several holdings of stock, but no such payment shall be made in full to any stockholder until after the publication of the

notice hereinafter provided. Resolved, second, That the President of this corporation cause notice of the adoption of the foregoing resolution to be published in some newspaper of general circulation, published near the principal office or place of business of this corporation, once a week for four successive weeks; and that he certify these resolutions to the secretary of state of West Virginia, and deliver to him a certificate showing the publication of said notice, as provided by law.

Given under my hand this 26th day of April, 1916.  
JOHN F. CAVENEY,  
President of Said Corporation.  
Attest:  
THOMAS BROWNING, Secretary.

### Which costs most—painting or waiting?

After your house needs painting, every year you wait it will require more paint and more labor to put it in good condition. And every year you wait, your house is worth less. A little paint-money is good paint-insurance.

**DEVORE**  
THE GUARANTEED  
LEAD AND ZINC PAINT  
FEWER GALLONS - WEARS LONGER

Just as soon as your house needs painting, come in and let us show you how little it will cost you to use DEVORE. We say "DEVORE" because it's absolutely pure. That's why DEVORE takes fewer gallons, wears longer—and costs less by the job or by the year. And that's why we guarantee Devore without reserve.
